MORTAR GUNS NOT

READY FOR FIRING

The great mortar guns at Battery Harlow, Fort Ruger, back of Diamond Head, will not be fired by the artillerymen for some time to come, as the fire control system is not yet installed. Work is progressing on these important electrical apparatus which will connect the observation station in the summit of the crater, facing toward the ocean, and the head of guns, but until everything is in readiness the guns can not be fired. When the electrical connections are ready the mortars will throw great shells over Diamond Head crater far out to sea.

PINCHOT TO KEEP HIS STEADY JOB

Forester Says That He Will Not Become a University President.

WASHINGTON, December 15.—Gifted Pinchot says he isn't going to give up a steady job to undergo the vicissitudes of a university presidency. He explained today that he knew his name had been under consideration in Michigan, but that if an offer were communicated to him he would decline.

"I don't wish to leave the forest service and I don't expect to do so," said the chief forester. "I don't know how I would like to be a college president. Here in this position I have work that I like and the precariousness of a university position doesn't appeal to me at all."
